Please answer the questions on the next page...

1) There is a phrase: "nothing about us without us." It means that there are people who are treated poorly because of their disability, race, gender, economic status, or other identity (or combination of identities), and they must be meaningfully involved in the decisions that affect them. If you are a committee member, how are you personally advancing this idea?

2) The name of the Fellowship is the Larry Biondi Fellowship for Radical Thought and Action. What is positive radical thought and action to you?

3) How do you imagine this committee and yourself advancing the fund's objectives?

4) Describe the amount of time and type of work you would be able to dedicate to the Committee.
